Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

This application is up for consideration.

I. A telephone call is made today, 02 March 2005. It is told that Mr. Donald C. Lucas is on a business trip to Japan. Therefore, this Office action is made.

III. The independent groups of claims (1-6) and (7-12) are not considered patentably different or distinct since the group of claims (1-6) is broadly included a solution of the group of claims (7-12). Therefore, no restriction is made. Should applicant disagrees, shows or urges otherwise in the next response to this Office action in order for it to be considered timely, a restriction will be made for the record as disagreed, shown or urged of the record.

IV. Claims 1-12 are generic to a plurality of disclosed patentably distinct species comprising many possibly physical forms as broadly disclosed and claimed (At the level of one skilled in the art, there are hundreds of thousand of references to be considered and thousands to be applied under 35 USC 102(b) alone as broadly disclosed and claimed in the broadest claim 1 (*) mostly being in solution, (**) being in granule, (***) being powder and (****) lastly being paste among them. They are greatly burdensome to be considered and searched them all at one time. But applicants will have a chance to see them all during the prosecution when no amendment is made to the broadest claim 1) with some being specified as (1) solution, (2) past, (3) powder and (4) granules. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for an initiation of a search, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

V. Applicant is advised that the reply to this requirement to be complete must include an election of the species for an initiation of a search even though the requirement be traversed (37 CFR 1.143).

VI. Other issues have not been considered until, a proper election is made and resolved.

VII. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hoa V. Le whose telephone number is 571-272-1332.

The examiner can normally be reached from 6:30 AM to 4:30 PM on Monday through Thursday and about the same time of most Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cynthia Kelly can be reached on 571-272-1526.
